Objective

Passionate and creative Web Developer with 5+ years of experience in developing web and mobile applications. Adept at translating design concepts into responsive, aesthetically pleasing, and user-friendly web pages. Known for a keen eye for design, strong problem-solving skills, and the ability to work independently or collaboratively within a team. Proficient in leveraging modern web technologies to enhance user experience and optimize application performance.

Education

Wyższa Szkoła Bankowa w Warszawie

Warsaw, Poland

BSC IN COMPUTER SCIENCE

Mar. 2022 - PRESENT

Relevant Coursework: Web Development Fundamentals, Advanced Web Development, Database Management Systems, Software Engineering Principles, Web Security, Algorithms and Data Structures, Mathematics, Physics

Politechnika Warszawska (Warsaw University of Technology)

Warsaw, Poland

BSC IN COMPUTER SCIENCE

Oct. 2021 - FEB 2022

Skills

Technical Skills

- Languages: TypeScript, JavaScript, SCSS, CSS, HTML, Python, Java, C++
- Frameworks & Libraries: Angular, React, Express, TypeOrm, Serverless
- Environments: AWS, Docker
- CSS Frameworks: Tailwind CSS, Bootstrap, Bulma
- Version Control: Git, Github
- Operating Systems: Linux, Windows, MacOS with strong troubleshooting skills for Windows environments
- Microsoft Office Applications
- Strong expertise in UNIX and its concepts
- Databases: Oracle, MySQL, and Postgres.

- Testing Frameworks: Cypress
- Node.js
- Google Analytics
- Wordpress
- Storybook
- Basic knowledge of Java 8/17, Spring, REST/SOAP, JSF, jQuery
- Angular Material
- Solid understanding of data structures, algorithms, and software design principles.
- Proven ability to adapt to new technologies and frameworks quickly, ensuring adaptability in dynamic work environments.
- Basic knowledge of cloud-based solutions (Google Cloud, AWS, Azure).
- Knowledge of agile methodologies and DevOps practices.
- Ability to write clear, consistent, and high-quality code.
- Design Tools: Adobe Photoshop, Illustrator, InDesign, XD

Soft Skills:

Communication: Clearly and effectively communicated with customers to understand their issues, needs, and concerns.

Problem-solving: Analyzed and diagnosed customer problems or inquiries, identifying root causes and implementing effective solutions.

Time management: Prioritized and managed multiple customer inquiries simultaneously, ensuring timely responses and resolutions to each.

Teamwork: Collaborated with colleagues and other departments to address customer concerns that required cross-functional support.

Flexibility: Adapted quickly to changes in customer demand, company policies, or job responsibilities, maintaining a positive attitude and willingness to learn

Languages: English(C2), Polish(A1)

Experience

Software Developer Intern

Mimosa Company

Harare, Zimbabwe

Feb. 2021 - Oct 2021

- Developed and maintained user interfaces using React and Next.js, ensuring high performance and scalability.
- Collaborated closely with product managers and UX/UI designers to translate vision and designs into efficient code, resulting in enhanced user experiences.
- Utilized Tailwind CSS to craft responsive and visually appealing components, improving overall website accessibility and compliance with web standards.
- Implemented state management effectively and integrated RESTful APIs, contributing to the seamless functionality of web applications.
- Conducted code reviews, mentored junior engineers, and stayed abreast of emerging trends in front end development to continuously improve products.
- Assisted in the development and deployment of scalable web applications, utilizing Angular, JavaScript, TypeScript and other web technologies.
- Contributed to the enhancement of UI/UX design, resulting in a more intuitive user interface and improved user experience.
- Conducted comprehensive testing and debugging procedures to ensure software reliability and performance.
- Actively participated in design discussions to evaluate and select appropriate technologies for project implementation.
- Implemented modern ES6+ features, adhering to industry best practices and coding standards.
- Collaborated with cross-functional teams including product managers and back-end developers to deliver features and services within Agile framework.
- Troubleshooting and debugged issues, addressing performance bottlenecks and enhancing user experience.
- Wrote and updated technical documentation to ensure knowledge transfer and maintain project integrity.

Technical Support Professional

Warsaw, Poland

Foundever

Feb. 2022 - PRESENT

- **Technical Support Responsibilities:** Provided technical support to customers, troubleshooting issues with software, applications, and online services
- **Software Utilization & Familiarity:** Slack, Microsoft Teams, Salesforce, Jira
- **Training & Knowledge Sharing:** Involved in training new employees
-

Projects ---

Todo App 

ANGULAR TYPESCRIPT PROJECT

Github Repo 

- Developed a task management application using Angular and Tailwind CSS.
- Implemented features for task creation, updates, deletion, and completion tracking, enhancing user experience and productivity.

Utilized: Angular, TypeScript, Tailwind CSS

Photography Website

[Github Repo](#) 

REACT TYPESCRIPT PROJECT

Designed and developed a dynamic photography portfolio website using modern web technologies such as React, TypeScript, SCSS, HTML, and CSS. Leveraged React for seamless UI interactions and component reusability, while TypeScript ensured codebase robustness and type safety. Implemented responsive design principles to ensure optimal viewing experience across various devices and screen sizes. Integrated SCSS for efficient styling management and employed HTML and CSS for structured layout and aesthetic presentation. This project showcases a fusion of creativity and technical proficiency in front-end web development, highlighting a keen eye for design and user experience.

Utilized: React, TypeScript, SCSS, HTML, CSS,

Tic Tac Toe Game

[Github Repo](#) 

ANGULAR TYPESCRIPT PROJECT

Developed a dynamic and interactive Tic-Tac-Toe game utilizing Angular framework, offering users a seamless and engaging gaming experience. Implemented features such as player turns, win detection, and board reset functionality, ensuring smooth gameplay and user satisfaction. Employed Angular's robust component-based architecture for efficient code organization and maintainability. Demonstrated proficiency in front-end development and problem-solving skills through the creation of this project.

Utilized: React, TypeScript, SCSS, HTML, CSS

Twitter Mirror

[Github Repo](#) 

ANGULAR TYPESCRIPT PROJECT

This project is a recreation of Twitter's frontend using Angular, Tailwind CSS, and Angular Material. The aim of this project is to showcase the ability to replicate a UI based on an existing design, focusing on key features of Twitter's timeline functionality.

Utilized: Angular, TypeScript, Tailwind CSS, SCSS, HTML, CSS

MEMORY GAME CHALLENGE

[Github Repo](#) 

REACT TYPESCRIPT PROJECT

- Created a React-based memory card game with multiple difficulty levels and time constraints.
- Integrated TypeScript for robust code structure and ensured cross-browser compatibility through SCSS and HTML/CSS techniques.

Utilized: React, TypeScript, SCSS, HTML, CSS

Portfolio Page

[Github Repo](#) 

NEXTJS TYPESCRIPT PROJECT

The Personal Portfolio Website is a showcase of my skills, experiences, and projects as a frontend developer. This dynamic and visually appealing website is developed using a modern tech stack, including NextJS, React, TypeScript, TailwindCSS, HTML, and CSS. It serves as a digital resume and a platform to demonstrate my expertise to potential employers and collaborators.

Utilized: NextJS, TypeScript, TailwindCSS, HTML, CSS
